Professional Profile

University English lecturer with more than seven years of experience in Chinese higher education. Specializes in curriculum development, English for Academic Purposes (EAP), assessment design, and educational technology. Combines an MBA, a B.S. in Computer Science, and CELTA with practical experience designing scalable teaching systems, integrating AI into instruction, and automating administrative workflows. Recognized for identifying repetitive instructional and administrative processes and designing practical technology solutions that improve consistency, reduce workload, and enhance the teaching and learning experience.

Core Strengths

- Curriculum Development
- CEFR-aligned Course Design
- Assessment Design
- Educational Technology
- AI-assisted Content Development
- Workflow Automation
- Python • JavaScript • AppleScript
- Faculty Technology Support

Professional Experience

Wintec – Waikato Institute of Technology / Jinhua University of Vocational Technology

English Lecturer | Jinhua, China | February 2019 – Present

- Teach approximately 100–125 undergraduate students each semester across CEFR Elementary, Pre-Intermediate, and Intermediate English courses.
- Deliver approximately 60 lessons each semester (120 annually) and conduct one-on-one speaking assessments.
- Co-developed the programme curriculum and created approximately five weeks of original lessons during the initial curriculum build.
- Developed and continuously refined approximately 120 university lessons annually, each comprising multiple instructional stages, student worksheets, teacher guides, answer keys, and multimedia resources.
- Designed an evidence-based eight-stage lesson framework that standardized pacing, classroom structure, and student engagement for 80-minute lessons.

- Reviewed, revised, and standardized lesson materials produced across the teaching team to improve consistency and usability.
- Introduced AI-generated lesson illustrations and ElevenLabs audio workflows that were subsequently adopted by multiple instructors.
- Designed and implemented a centralized attendance tracking system used daily by seven instructors and the programme manager, supporting an English programme serving approximately 700–800 students each semester.
- Rebuilt a semester timetable-to-calendar workflow as a Python-powered macOS application that converts Excel schedules into shareable ICS calendars for teachers and classes, eliminating repetitive manual entry.
- Designed and maintain a browser-based speaking assessment application that organizes randomized prompts, timing, and examiner flow for one-on-one oral examinations.
- Advocated for and supported adoption of ZipGrade optical mark recognition for objective assessments within the Pre-Intermediate programme, reducing repetitive manual marking.
- Provide Microsoft 365, SharePoint, OneDrive, and classroom technology support for colleagues.

Education

Master of Business Administration (MBA), 2025

University of the People

Bachelor of Science in Computer Science, 2018

University of the People

Professional Certifications

- Cambridge English Level 5 Certificate in Teaching English to Speakers of Other Languages (CELTA), Pass, January 2021
- CompTIA Network+, valid through May 2028
- Google Project Management Professional Certificate
- Google Data Analytics Professional Certificate
- Google IT Automation with Python Professional Certificate
- Google IT Support Professional Certificate
- TEFL Certificate
